ly carried out, without respect to persons.

No name for either the Daily or Weekly Journal, will hereafter be entered on our list without payment being made in advance, and the paperwill in all cases be discontinued when the time paid for expires.

It is a painful element of publicity, that it is generally the worst things that make the most noise .-That the virtues are quiet and unobtrusive, while the vices, by disturbing the order of things attract to themselves attention. The law punishes crime, or pretends to do so. It cannot even pretend to reward virtue.

A certain amount of brass and rowdyism will some times give to a totally unworthy character a sort of newspaper prominence that the ignorant or unsuspecting might mistake for fame. The telegraphic wires transmit on the same night the news of the celebration of the laying of the Atlantic Cable and of the illegal burning of the quarantine buildings on Staten Island. John Morrissey and the "Benicia Boy" train themselves for the laudable purpose of beating each others' bodies and smashing each others profiles, and the papers dilate with pleasure upon the preparatory arrangements-tell how the champions are trotted out and exercised and corried down and rubbed off like horses.

On another field another kind of prize fight comes off. A man named Brownlow, misnamed Reverend, referred to as the Fighting Parson, makes an arrangement to discuss the question of slavery with another man of equally low cast of mind and temper, a Mr. Prynne, an abolitionist. They meet at Philadelphia, and the result may easily be foreseen. They out-Herod Herod, They are didactic without being trite or common-place be no good reason why the mail and travellers should be dethey out-Billingsgate Billingsgate, and the papers publish the particulars.

Wm. Walker, or Col. Titus, or any other visionary or adventurous or reckless person gets together a few per sons as reckless as himself, and at the head of two or three hundred men he is a General, and his handful of undisciplined men, embodied contrary to the spirit of the law, is an army, and he wanders about the earth ever great benefit and convenience to merchants.-or some other small affair.

heroism with deeds of violence or lawless adventure,—to lantic R. R., and the Company ought to help. fancy Walker, Lopez, or Ray Tompkins as being little inferior to Washington, Columbus, or Bolivar; -thus brawling demagogues are apt for the moment to attain a power which they can neither hold nor manage.

We regret to see that an unpleasant state of feeling is growing up among and between the Demoerats of the State of Virginia. Of the different wings or sections of the party there, one has the Enquirer and the other the South for its central organ. The suggestions of one wing are controverted by the other wing.-The Enquirer recommends the holding of the Democratit State Convention, at Richmond or Alexandria, while the South thinks that Staunton is the place. One wing floor at Columbia. S. C., one night this week was found favours Letcher for Governor, and the other pitches into frozen next morning. him. There are evidently ambitions and aspirations we trust that all will do so at the right time, regardless of and some other crops.—Ib. past squabbles about men.

It cannot be denied, however, that the great and alwhich are certain to flow-a feeling of careless security, nor that in the squabbles of individuals for power and ed and its ascendency jeopardized

In Virginia, as in North Carolina, they have that queer sort of politician—a distribution Democrat,(?) who is put forward, aided and abetted by the opposition to the Democratic party. In Illinois, Pennsylvania and other Northern States, there are certain disappointed aspirants, who are consequently disorganizers. What afford to abate one iota of Democratic principle.

Getting in the Goods. Judging by appearances, our Dry Goods merchants have determined to keep on trying for another year .got in a good many already. On Market Street and Swann, by the Know-Nothing Convention, says: Front street there be packing-boxes, and also at different points on Water Street. We do not know whether the stocks this year are as large as usual, but they look and can be offered at "prices to suit the times."

The importations of foreign goods are certainly much smaller this year than for any of the years lately past; dearth of goods, nor of any demand above the supply,

others again are lower. There is no sort of use in send- for the reform of evils complained of. Those that want goods ought to get them at home.

THE DETENTION OF THE MAILS AND PASSENGERS. We publish to-day a communication from Hon, Wm. S. Ashe, President of the W. & W. Railroad Co., in reply to an article recently copied by us from the Charleston able head of the Post Office Department. The course of the Railroads immediately North of us is impracticable in the extreme, and is not simply inimical to us, but | cinity. And it is notorious that all sorts of arms and suicidal, so far ar their own interests are concerned.

afternoon, 18th inst., and arrived here on Monday evening with a full cargo of merchandise, which was dis. ity to the edium of popular contempt. charged, and she has now on board a full cargo of naval stores-about 2600 bbls,-and will sail this afternoon for New York. The Glover is a fine vessel and fast sailer, and has generally made quick trips.

Daily Journal, 25th inst.

The Journal says our light must not be "hid under a bushsays that "a bushel" would cover us, light and all. We look for comfort from our friend of the Journal.—We know, for a certain reason, that he will not agree that our corporcal importance, at least, is so inconsiderable.

Was no insurance. The loss iams neavily upon Mr. Williams son, though the building itself was not of much value.—
The fire is supposed to have originated from a spark.

A small wooden building, in close proximity to the

Fayetteville Carolinian. We don't know what to make of our friend Wightman's certain reason, unless it be that, little as he is, the editor of the Journal is still smaller. He forgets, however, that however it may be in the matter of longitude, we have the decided advantage of him in latitude—that evening were twenty-one. In the city the epidemic is we are very considerable taller across.

odious discriminations, they will not be borne without SOUTH CAROLINA THREE COMETS-Their Rising and Setting .- There

Donati's-In the constellation Ursa Major-Rises-3h. 16m. A. M., N. E. by North. Sets-8h, 44m, P. M., N. W. by North. Encke's-In the constellation Cancer-Rises-1h. 7m. A. M. Northeast.

Sets-5h. 17m. P. M., Northwest, Tuttle's-In the constellation Perseus. This comet has just come within the circle of perpetual apparation, and therefore does not set to us. It is on the meridian, above the pole, at 3h. 34m. in the morning.

The first named, however, is the only one, we believe visible to the naked eye, and is now rapidly approaching the earth. As stated yesterday, it will attain its perihelion in the first week of October, and cent appearance. It will approach within 6,000,000 miles of the earth. The St. Louis Republican, refering to it, says: Those who look upon the small nebulous star now visible can hardly realize the terrific appearance of this same object when, in 1264, it approached the sun with a tail one hundred degrees in length! Its tail came streaming up in the zon. Its train was first very broad, but it decreased in width, extending enormously in length. It is said to have disappeared October 3d, on the day of the death of Pope Urban IV. It was, of course, thought a special forerunnel of that event. This comet had appeared before in 975, and would give it a period of about 292 years. In 975 its tail was 40 degrees in length, and its nucleus or head was so after 1264, was in 1556, in the month of February. Its aspect was very similar to its present one being somewhat paler than the planet Mars, and with a train of four degrees in length. It has been known as "the great comet of Charles V," because it appeared in the year in which his

Our St. Louis cotemporary, however, according to other authority, is mistaken in regard to the identity of the comet. The one it describes is believed to be the third one (Tuttle's) mentioned above. There is a great difference of opinion as first of the three comets seen in 1827, and to have a period of about thirty-one years .- Balt. Sun.

Coast. Boston, Sept. 22.—The bark John Gilpin, from Africa, reports that the bark E. A. Rollins, from New Orleans, was run away with by the mate and crew about the 26th of July last. The captain was left ashore.
